PROFILE

Final-year engineering student with strong programming fundamentals and hands-on experience in web development, full-stack application development, and software design. Focused on building clean, scalable, and maintainable software while leveraging AI-assisted development to improve productivity and code quality. Eager to contribute as a Graduate Software Engineer by developing reliable, user-centric applications.

SKILLS

PROGRAMMING LANGUAGES	Python Java C C++ JavaScript
WEB DEVELOPMENT	HTML CSS React Next.js Node.js NestJS Django
DATABASES & CS	PostgreSQL SQL DBMS OOP Data Structures & Algorithms
TOOLS & DEVOPS	Git & GitHub Docker Keycloak VS Code MATLAB
SOFT SKILLS	Communication Problem Solving Teamwork Leadership Time Management Adaptability

PROJECTS

QR BASED SMART BIKE IGNITION SYSTEM

ESP32 | Embedded Systems | Authentication Logic

- Engineered a QR-based smart ignition system using ESP32 to enable secure, keyless vehicle access.
- Integrated hardware-level authentication logic to strengthen system security and improve operational reliability.

TAILORING & CLOTHING E-COMMERCE WEBSITE

Django | SQLite | HTML | CSS | JavaScript

- Built a full-stack e-commerce platform with backend logic for order management and user authentication.
- Designed responsive frontend interfaces and structured relational database models to support custom order workflows.

MULTI-TENANT ERP PLATFORM

Next.js | NestJS | PostgreSQL - Ongoing

- Developing a full-stack, multi-tenant ERP platform using Next.js, NestJS, PostgreSQL, Prisma, Docker, and Keycloak.
- Implementing secure authentication and role-based access control (RBAC) using Keycloak to support multi-tenant data isolation.

CIVIC ISSUE REPORTING SYSTEM

HTML | CSS | JavaScript

- Built a web-based platform enabling real-time civic complaint submission and status tracking.
- Developed responsive, accessible user interfaces to improve usability and interaction flow.

INTERNSHIP

HOCUS POCUS VFX, CHENNAI

Intern

- Gained hands-on exposure to digital production workflows and project coordination within a professional VFX studio environment.
- Collaborated with the team to understand client requirements and observed editing and rendering pipelines in a fast-paced, deadline-driven setting.

CERTIFICATIONS

- Software Engineering Virtual Internship | Accenture** - Completed project-based training in SDLC concepts, debugging, Agile workflow, and requirement analysis.
- Google Data Analytics Professional Certificate | Google** - Completed hands-on training in data cleaning, visualization, SQL, and dashboard creation using real datasets.

EDUCATION

Bachelor of Engineering in Electrical and Electronics Engineering

2023 - 2027

Knowledge Institute of Technology, Salem, Tamilnadu, India.

Current CGPA: 8.1 / 10
